JERRY JOY CAFE

JERRY JOY CAFE

A wide-angle photograph of a bustling outdoor market street during sunset. The sky is filled with dramatic, orange and grey clouds. In the foreground, a person in a red shirt sits on a motorcycle, and another person in a blue shirt stands nearby. The street is crowded with people, many of whom are wearing hats or carrying bags. Several motorcycles are parked or moving through the crowd. In the background, there are multi-story buildings and a large billboard for Knorr. The overall atmosphere is one of a busy, everyday scene in a developing area.

If you can't
measure it, you
can't manage it

SOCIAL PROSPERITY STANDARD

THE NEW LOCAL

Great neighbourhoods exist where you have solid wellbeing foundations, plus active social life, all within walking distance.

SOCIAL PROSPERITY STANDARD

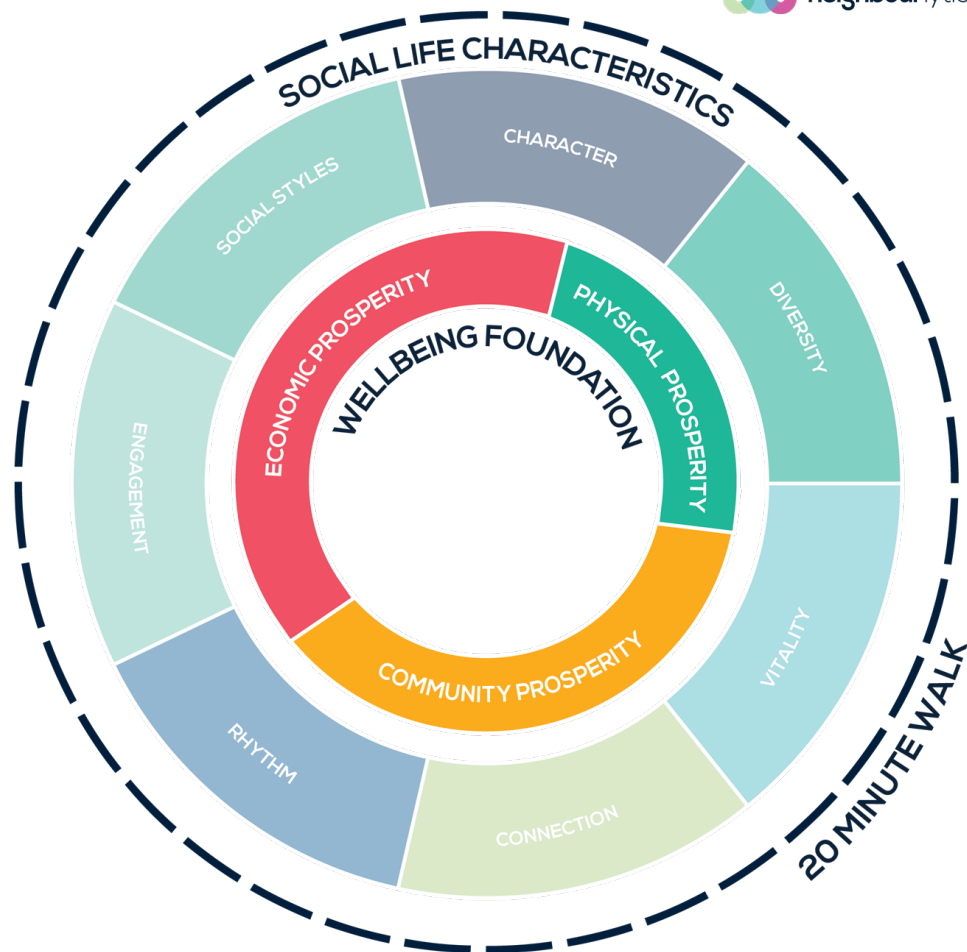

MEASURE ANY NEIGHBOURHOOD

3 dimensions of wellbeing.

The **Social Prosperity Standard (SPS)** is a comparative, score-based framework for understanding place-performance at a hyper-local level *Social Determinants of Health*.

7 tenets of great neighbourhoods.

The **Tenets of Great Neighbourhoods** quantifies a set of attributes that describe what makes neighbourhoods unique, contributes to the sense of place, and is important to locals.

Recovery Metrics

Vulnerable industries and in-demand assets

Public Space

Nature is the new attraction.

Hospitality

Dining has clearly dropped, but people are showing connection to food at home.

Creative Industries

Creativity has got personal, rather than public.

Attractions

Activities have turned inside, making destinations vulnerable.

Wellbeing & Beauty

Health remains important, but priorities have changed.

**Nature is the new
attraction**

Insight 1

Public Space

Nature is the new attraction.

Proportional change in local engagement levels with key themes relevant to Public Space between February and May 2020

Melbourne	Sydney	Brisbane
Nature 112%  <i>Increase</i>	Nature 36%  <i>Increase</i>	Nature 17%  <i>Increase</i>
City/Streetscape 70%  <i>Decrease</i>	City/Streetscape 10%  <i>Decrease</i>	City/Streetscape 39%  <i>Decrease</i>
Public Space 70%  <i>Decrease</i>	Public Space 35%  <i>Decrease</i>	Public Space 7%  <i>Decrease</i>

An analysis of Australians' social media posts and comments from the past month compared with before the [coronavirus](#) pandemic, has marked a shift towards nature-related topics and activities.

It also showed live events and public creative endeavours have risen from their pre-pandemic levels.

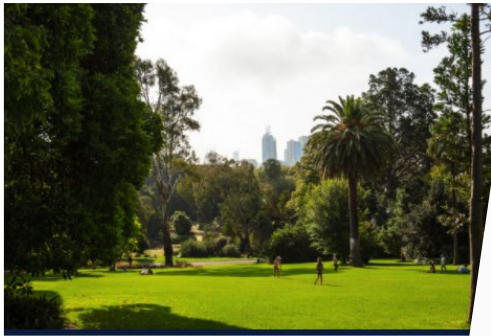

For Australian Human Rights Commission policy adviser Ms Saintilan, the sudden shift to working-from-home life and the fact that concerts has led her to truly "learn the value of ocean swims".

When the pandemic hit, Ms Saintilan and her partner Michael Stocks decided to quit their lease and spend each month of 2020 [living in a different Airbnb](#). They are now in Bondi.
